McCulloch chain saws are identified by a model number (in this instance, 600042) followed by a suffix letter (A, B, C, etc.) stamped on the identification plate attached to the saw. Suffix letters denote variations in parts or assemblies in the manufacture of the saw.

Part numbers listed in this I.P.L. which have a suffix letter or letters following the description, indicate the part is used only on the model(s) identified by the letter or letters.

Part numbers and descriptions without suffix letter or letters apply to all versions of the chain saw model.

Part numbers which have one or more dots (.) preceding their descriptions may be ordered individually, but they are also included in the kit or assembly whose description begins directly above the dot(s).

Part numbers in this IPL which were not in the previous IPL covering these saws, are indicated by a dash (-) preceding the new part number.

The policy of McCulloch Corporation is one of continual improvement in design, manufacturing and engineering advancement wherever possible to assure still finer two-cycle power tools. Hence, specifications, equipment, colors, design and manufacturer's suggested list prices are subject to change without notice and McCulloch Corporation reserves the right to make such changes without prior notification or obligation to backfit or supply backfit components for units previously shipped from the factory.

September 1984

① Used on PM 320 models.

② Used on PM 310 models with suffix letters A, C, E, J; on PM 320 models with suffix letters C, E, G, I, J, K, P; and on PM 330 models with suffix letters E, G, J and P.

③ Used as optional equipment on PM 310, 320 and 330 models not equipped with Spike, P/N 214207.

④ Used on PM 310 and 330 models with suffix letter J.

⑤ Used on PM 330 models with suffix letter J.
